

# Althea

Althea is a full service solution that enables anyone to easily build and manage a network.

- **Plug-and-Play Routing** requires less technical expertise. Just plug the antenna, aim, and you're online!
- **Agile Network Design** allows you to build a dynamic network from hop-to-hop instead of large, expensive infrastructure.
- **Automatic Billing.** Built-in, flexible billing options and enforcement lets you focus on the things that matter, not bill collecting.
- **Remote Management Tools and Expertise** means a better running network. Our Network Operations Center is here to help you design, build, and maintain your network.
- **Customer Management and Marketing.** From demand aggregation, to a robust CRM, and tier 1 customer support, we have all the tools to promote and grow your network.

## The Data you Need

Althea tracks network revenue, payments, and system maintenance in easy to understand graphs and charts.

## Community Based

Althea's community based model and agile networking make it easy and affordable to build and manage a network anywhere, even in the most challenging and rural environments.
